**CAIM GROUP
IS YOUR RELIABLE PARTNER**

Caim Group was born out of Caim's will to create a network of companies, six of which are connected by the love for the sea. Caim Group delivers solutions to the maritime industry to ensure a safe and compliant navigation. We focus on customers by offering prompt tailored support 24/7 to help when needed (with the companies CAIM and Generalmarine). Being located worldwide, we can also ensure a fast and efficient delivery of products and services.

CAIM, founded in 1945, is one of the most important and longstanding international UKHO agents and it is an ISO 9001-2015 certified company.

In the last years, CAIM has invested many resources to transform the traditional navigational tools into new, digital maritime solutions: our planning station NaviGate, fully integrated and compliant to the standard regulations, and our MED certified ECDIS, CAIM ECDIS900, represent the cutting-edge tools to navigate efficiently and safely.

CAIM keeps on coming up with new solutions and new products to meet the customers' needs and requirements, thanks to our in-house highly qualified development team, the strategic acquisition of companies related to the maritime sector and the opening of hubs worldwide: Genoa, Valencia, Antwerpen, Naples, Augusta, Venice, Miami and Singapore.

Hubs on the East Coast and on the West Coast of the USA are coming soon..

Our solutions are made to guarantee:

Generalmarine is known throughout the maritime industry as a major global NavCom, Connectivity and Service & Maintenance provider. We offer a range of carefully hand-picked quality products created by the world's leading manufacturers of Navigation and communication systems. We are based in multiple locations across Italy, and are available 24/7. We also work with a network of international partners, enabling us to offer support and services to customers across the globe. Our company is highly specialized in maritime and satellite communications (VHF and HF/SSB with DSC GMDSS, IRIDIUM and Isat satellite phones, Inmarsat terminals, FleetBroadband & Fleet Express and Mini-C), VSAT systems, TV satellite antennas, EPIRB, GPS, AIS, SART, NAVTEX etc. In terms of navigation equipment, we cooperate directly with the most important international companies operating within the professional maritime market.

generalmarine.it

We are:

Professionals: we provide marine electronics services of unrivalled quality all over the world.

Ambitious: we aim to become the most competitive and professional providers of marine electronic solutions worldwide.

Certified: we believe in holding ourselves to the highest standards, and as such, invest a lot in certification.

Customer Care: we provide an outstanding customer experience with our 24/7 global service.

The image shows three firefighters in full protective gear, including helmets and jackets with reflective stripes. They are positioned in the lower-left and center of the frame, facing right. One firefighter is actively spraying a powerful stream of water from a hose, which is directed towards the right side of the image. The background is a bright, hazy orange-red color, suggesting a fire scene or a controlled burn. The overall atmosphere is one of intense action and safety.

FIREFIGHTING /
SAFETY EQUIPMENT

VAMPA is responsible for the sale and maintenance of firefighting, safety, and life-saving equipment and systems.

Our aim is to satisfy the maritime industry's needs while maintaining our standards and high speed. We are certified as Service Supplier by RINA, Bureau Veritas, ABS (American Bureau of Shipping), and Lloyd's Register.

We are trusted by our customers. We answer their requests in a short time and we offer specialized services from the delivery of products to the maintenance.

Service: We perform service of fire extinguishers, breathing apparatus, EEED, compressed air cylinders, CO2 fixed systems, FM200 systems, HFC227 systems, liferafts, inflatable life-jackets and immersion suits, test and binding fire hoses, Epirb and Sart.

Sale: We provide the maritime industry with all firefighting and safety equipment, certified and ready to use. We have in house products and we are authorized resellers of certified gear.

Antincendio & Navale operates in the naval and industrial safety market. Through the years, we affirmed ourselves as the European leaders in maintenance, construction of maritime supplies and firefighting systems, making technological innovation, management, quality of services offered and the firm's internationalization our main strengths, other than becoming one of the most qualified companies in the market.

We are a young and dynamic enterprise that manages fleets worldwide and we serve our customers with the utmost professionalism. Certifications of our management system clearly express our full potential, making flexibility one of our fundamental virtues, along with more than a quarter-century of experience.

Prada can deal with any kind of signaling, identification and functioning problem. It is well known for manufacturing quality, creativity and customized solutions.

The main sector we work for is the marine industry, to which we can provide certified IMO signs and all kinds of signage – directional, safety, pax, evacuation, fire prevention, design, illuminated and photoluminescent signs.

Prada is your partner in creating the sign that best suits your wants and needs, from the raw material to the final product.

pradatarghe.com

Feasibility Survey and

Planning: We can create a survey from customers' specifications, studying the material choice and selecting the most efficient solution.

Production: We produce in-house signs of any form, size and material that can be combined with illumination.

Locations: We are located in Genoa and we operate worldwide in all Caim Group's hubs.

Installation & After Sale:

Our highly trained team can install the products on construction sites, shipyards and on board, even during navigation. Our after-sale team ensures customers are satisfied.
